

United States Department of Agriculture

*A barge was outfitted with a frontloading dump bed for hauling fish structures across the lake.*

The Kentucky Department of Fish and Wildlife Resources, U.S. Army Corps of Engineers, U.S. Forest Service, and several fishing clubs have partnered to improve fish habitat at Cave Run Lake. Thousands of structures, such as brush piles and wooden pallets, are being added to the lake to increase fish populations by providing shelter and feeding areas.

Free maps of fish structure locations are available online at [fw.ky.gov](http://fw.ky.gov) or at:

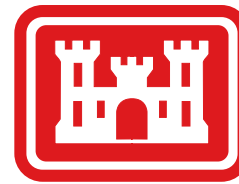

- Minor E. Clark Fish Hatchery (on KY 801 north of the dam)
- Cumberland Ranger District Office (on KY 801 south of the dam)
- USACE Cave Run Lake Office (on KY 826)

Email copies are available upon request to [tom.timmermann@ky.gov](mailto:tom.timmermann@ky.gov).

*The Cave Run Lake habitat improvement project is made possible by many dedicated volunteers who continue to assist. If you are interested in learning more about this project or want to volunteer, call (606) 783-8650.*

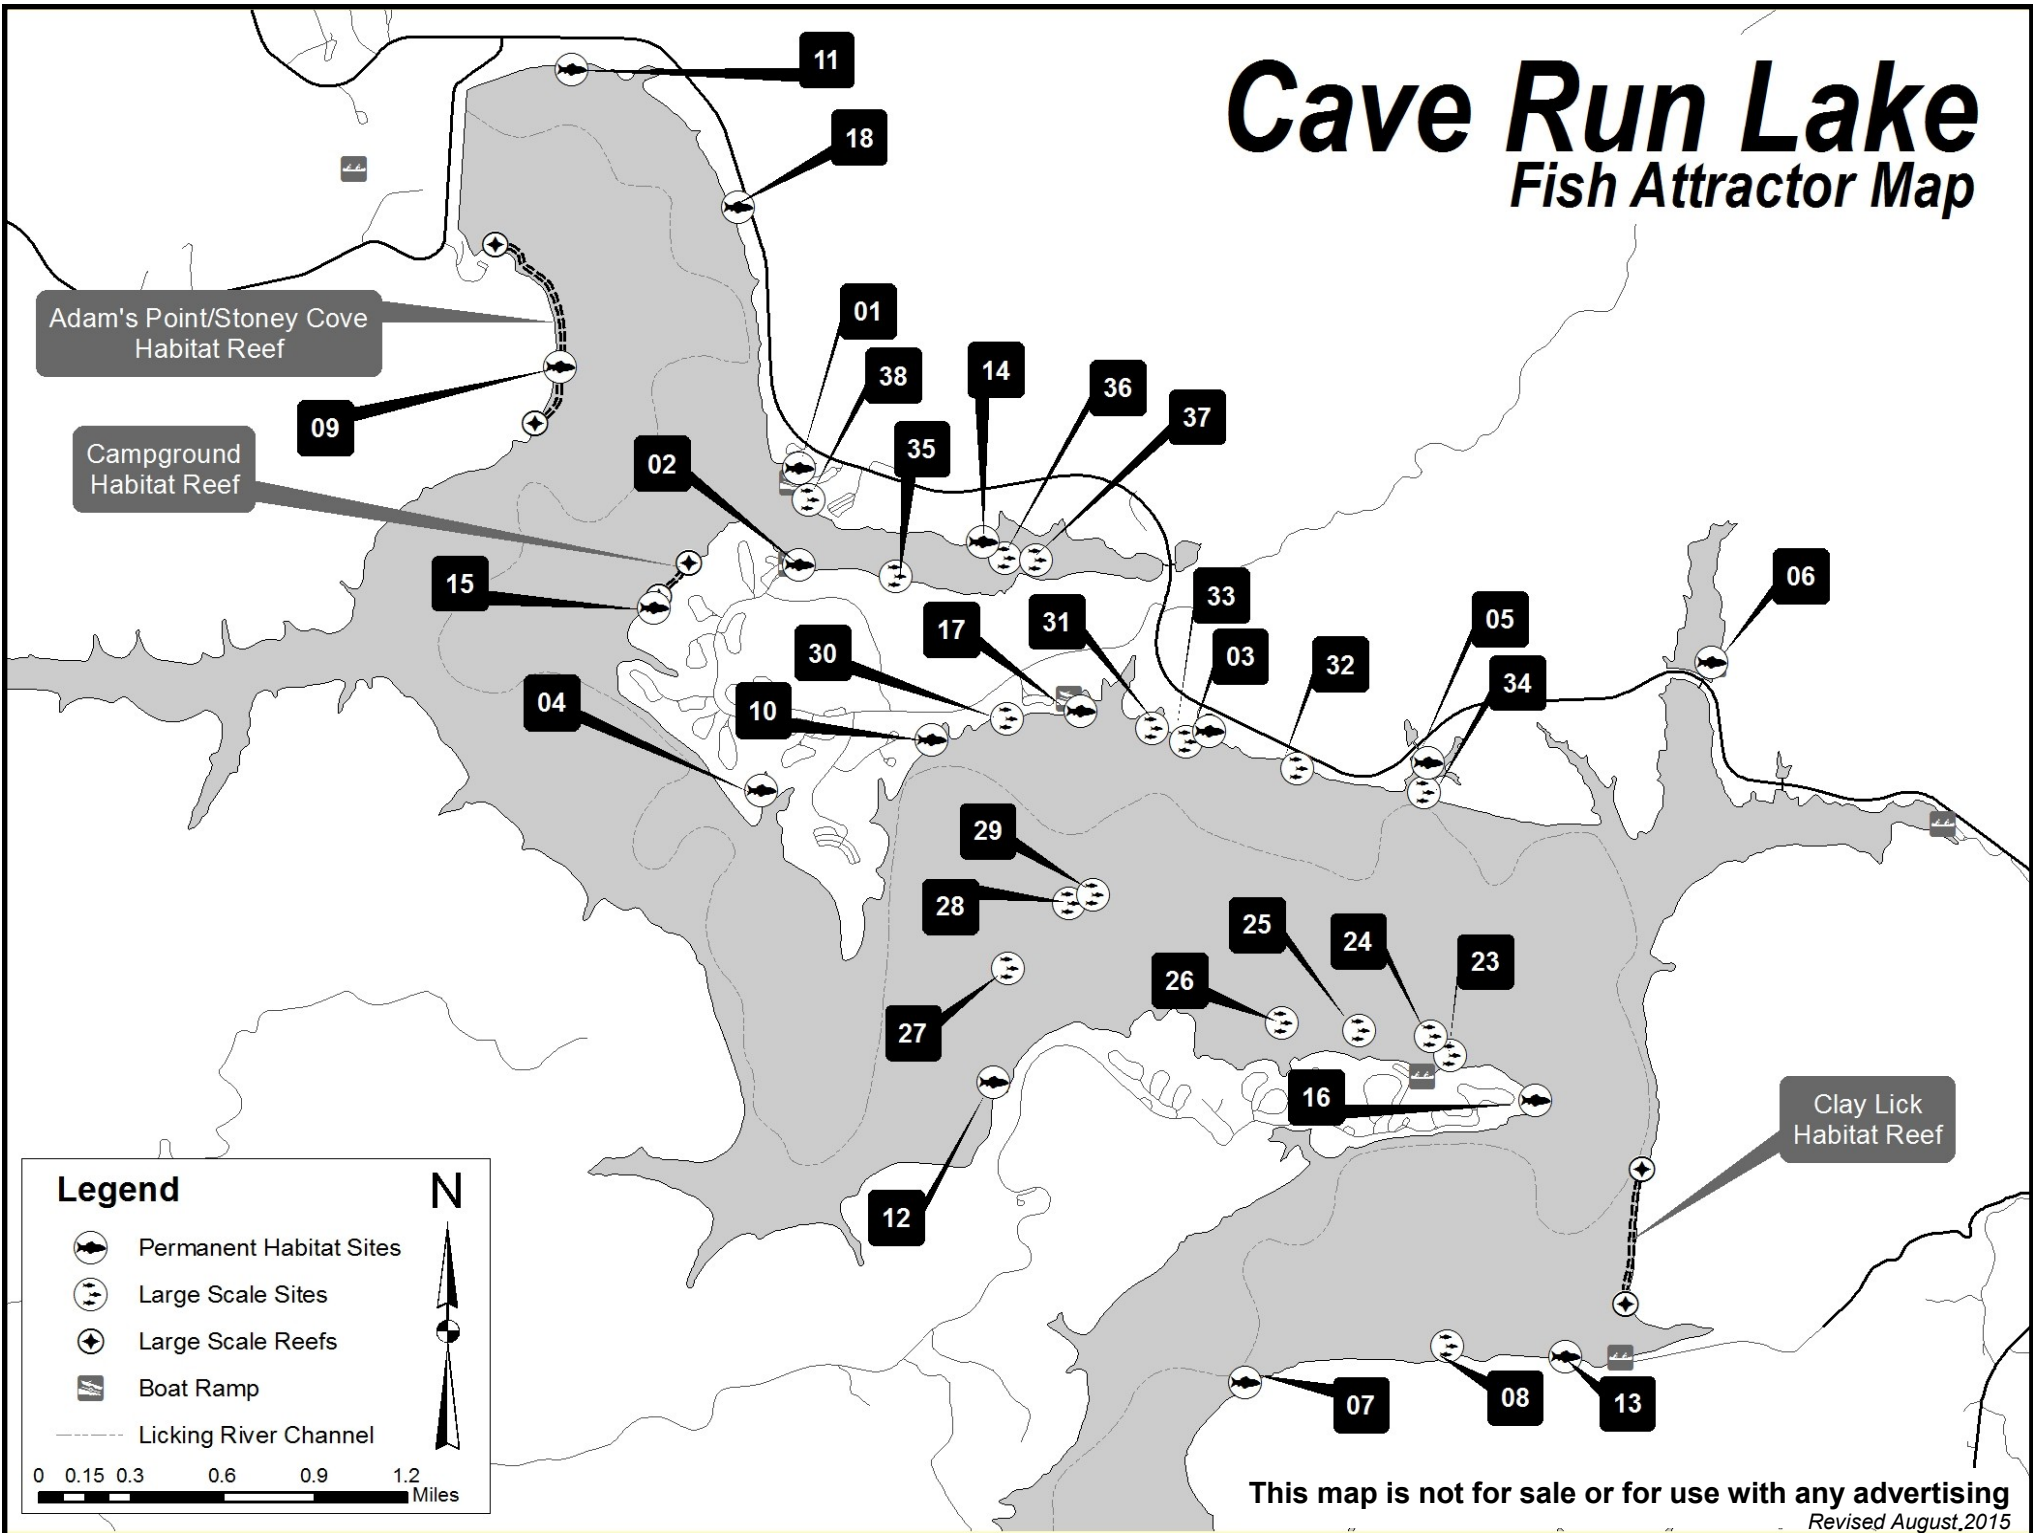

# Warix Boat Ramp will be **CLOSED** **JULY 25-29** For the Cave Run Lake Fish Habitat Improvement Project

USDA is an equal opportunity provider, employer and lender.
